What could be better than knowing there is a custom built holiday home waiting for you a mere 45 minutes drive from the Johannesburg City Centre? Willow Creek Residential Estate is situated in pristine surroundings on the banks of the Vaal River next to 15 kilometres of unpolluted water. After a long week in the urban jungle, exchange those leather shoes for a pair of hiking boots, that laptop for a pair of binoculars and prepare to retire to your special piece of Africa.

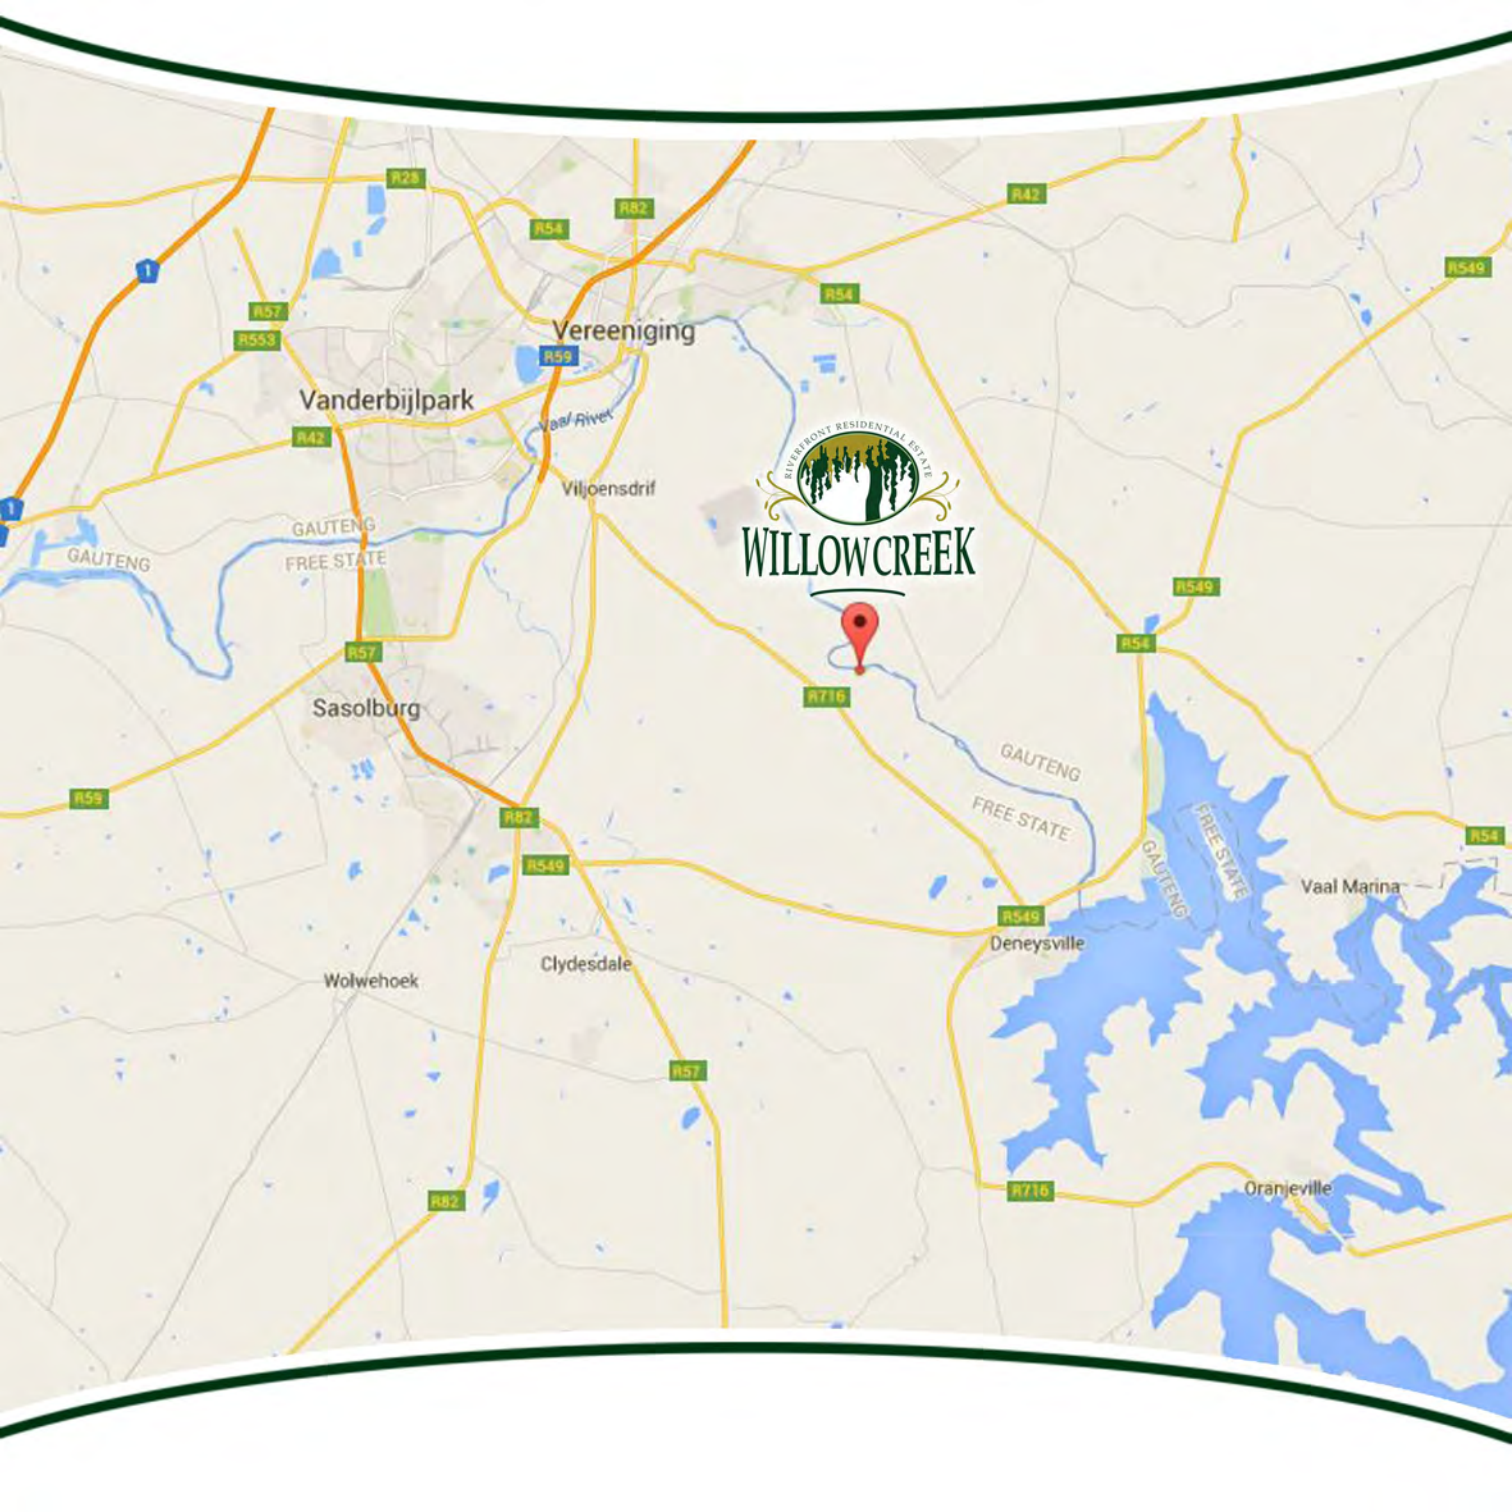

Grab the opportunity to own your piece of riverside bliss! Invest in your own Vaal River property at Willow Creek Residential Estate today! You'll know you have come home when you first kick off your shoes, open the curtains to be greeted by a piece of unpolluted Vaal River. Let the breeze come in through the open sliding door. Hear only the leaves rustling in the wind outside as the river birds settle in for the night and the owls come out to play. Time to build a fire and gather around as a family, time for the weekend to start!
